

Quality Policy

“Quality Through Partnerships”

Northern Hi-Tec Ltd’s management and employees are committed to providing defect free products and services, delivered on time to meet our customers’ requirements. NHT will satisfy all applicable requirements as specified by our customer.

Through **partnership** with all our stakeholders, Northern Hi-Tec Ltd is dedicated to providing a **trusted**, outsourced electronic design and manufacture service, which provides competitive advantage, enhances customer satisfaction, and creates profitable company growth.

We achieve this through Certification to the ISO9001:2015 standard, continual improvement to all our processes, employee training and ongoing investment in our facilities and capabilities.

NHT will actively communicate this Policy to all staff and any other relevant interested party as appropriate. NHT will endeavour to Continually Improve our Quality Management System and Internal Processes to ensure our Customers receive the best possible Products and Services, and to assist in the company growth into new market areas.

Quality objectives are established to support our organization’s efforts in achieving our Quality Policy, Business Goals and driving Continual Improvement and are reviewed annually for continuing suitability. Quality objectives are measurable and reviewed against performance goals during scheduled quality management meeting

Gary Hewitt
